Premature death among people with severe mental disorders. 1. Key facts • People with severe mental disorders on average tend to die earlier than the general population. This is referred to as premature mortality. There is a 10-25 year life expectancy reduction in patients with severe mental disorders. • The vast majority of these deaths are due to chronic physical medical conditions such ...

forces and risk factors affecting the patterns of illness and death in society. These theories have evolved as our understanding of the natural world has advanced, sometimes slowly, sometimes, when there are profound break-throughs, with incredible speed. Remarkably, advances in knowledge and changes in theory have not always proceeded in synchrony. Although wrong theories or knowledge have ...
